MERN STACK DEVELOPER

I am a skilled MERN stack developer with 4 years of experience and a certificate from the ALX Software Engineering program. I specialize in creating intuitive and engaging user experiences, transforming innovative ideas into beautifully crafted and functional products. My passion lies in delivering cutting-edge solutions that align with user needs and industry standards.

KEY COMPETENCIES

Full-Stack Development	Performance Optimization	Responsive Design
API Development and Integration	Version Control	Collaboration and Communication
Database Management	Problem Solving	Project Management

PROFESSIONAL EXPERIENCES

Mernify => A MERN Chat Application.

Built a real-time chat app using MERN stack and Socket.IO with features like authentication, image uploads, and instant updates.

Thechnest => A Responsive E-Commerce Website with MERN.

Developed a full-featured e-commerce platform with secure payment integration, responsive design, and advanced product management.

Dotask => A Task Management App.

Designed a scalable MERN-based task management app with role-based access and comprehensive dashboards for tracking progress.

Feel free to explore my [portfolio](#) or visit my [GitHub](#) account to see more of my projects.
